

WCIG Disability - NDIS

Support Coordination

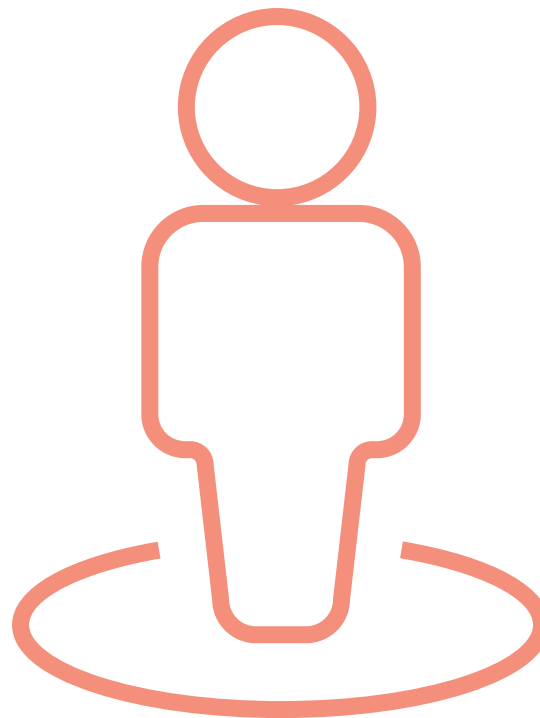

www.wcig.org.au

WCIG's Support Coordination helps people with an NDIS plan to identify and engage services needed to reach their goals.

WCIG utilises its networks and expertise to help you to navigate the NDIS through the different stages, monitoring progress and funding while empowering you to be independent in the implementation of your plan.

What does support coordination mean?

WCIG's Support Coordination is tailored to your individual needs.

- Understand your NDIS plan and goals
- Identify services and providers that best suit your needs
- Offer you options and choice
- Build your capacity to implement your own supports in the future
- Connecting you with mainstream service, community, informal and formal supports
- Negotiate and obtain quotes for support
- Develop service agreements and

create service bookings with chosen providers

- Arrange any assessments to determine the nature and type of funding required
- Monitor your NDIS plan outcomes and spending
- Support with redeveloping goals for new plans
- Decide the budget for each support type and advice any relevant plan manager of the breakdown of funds
- Provide the NDIA with reports on outcomes and success indicators within required timeframes

Disability supports offered at WCIG
